State Finished

Completed on Tuesday, 2 December 2025, 10:21 AM

Time taken 3 mins

Grade 1 out of 2 (50%)

Question 1

Incorrect Mark 0 out of 1

Video adapter is in the VGA graphics mode with 16 colors and 640x480 pixels resolution, so four display planes are used in the video memory. How many bytes are used in the video memory to store information about one full horizontal line of 640 blue color pixels?

Write your answer as a decimal value.

Answer: 80

Question 2

Correct Mark 1 out of 1

Video adapter is in the VGA text mode with 25 rows, 80 symbols per row and 16 colors for symbols. How many bytes are used in the video memory to store information about two full text rows (160 letters) using bright white letters and black background?

Write your answer as a decimal value.

Answer: 320
